Buckbee's Full of Life Seeds and Plants

Read these few lines about Reliable Seeds

It has oftentimes been said that, "besides good seeds, good gardeners are necessary in producing a satisfactory crop." We all know how true this is. Seeds of the best quality sometimes fail through improper treatment by sowing the seed too deep or too shallow, in too wet or too dry soil. Some will germinate rapidly at a certain temperature, while others, if sown under the same conditions, are apt to decay. The young plants are liable to various accidents, cold or dry air may check their growth or destroy them. Insects above and below the ground may attack them and a great many other contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore we do not **warrant** in any way, express, or implied, the contents, or the description, quality, productiveness, or any other matter of any seeds, bulbs, or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

Sweet Corn

Caution—Sweet Corn in bulk, even after being thoroughly cured, will often gather moisture and spoil, particularly after it has been exposed to a low temperature. To prevent this it should be taken out of the bags as soon as received and spread in a dry place.

Our quotations are per measured bushel shelled.

BUCKBEE'S FAMOUS NORTHERN GROWN PEDIGREED FULL OF LIFE PLANTS.

Now is the time for you to plan to renew your stock, as no doubt you have varieties growing that you will discard next season, putting new blood stock, or newer and better varieties in place of them.

Buckbee will treat you right every time—Order today.

CHRYSANTHEMUMS.

One of the largest and most up to date collections in the country—clean, healthy, pedigreed stock; strong plants from 2-inch pots for planting during April, May, June and July.

Let me book your orders now for shipment at such time as you may wish them; this will insure your getting the very best pick in our houses.
